

## **PROTOCOL FOR THE DEVELOPMENT OF THE ACCREDITA CI EXTERNAL EVALUATION PROCESSES BY 2020**

Concerned about contributing to maintaining the health, safety and well-being of the people who participate in the processes conducted by Acredita CI while the impact and effects of the COVID-19 pandemic last in our country, in the remainder of 2020 at least, Acredita CI will carry out all the processes in online mode through the development of videoconferences.

For this and in general terms, online interviews will be carried out maintaining the same structure of the face-to-face visit program with sequential meetings, with the exception of the visit to the facilities and review of infrastructure and bibliography that will require specific guidelines to be delivered to each program, so that it allows evaluator peers to have the necessary information in this new way of working.

On behalf of the Agency, a Technical Secretary will participate, accompanying the work of the committee. It is expected that on behalf of the Institution or the program, a representative will also participate who will moderate the interviews and will be in charge of welcoming and bidding farewell to the interviewees.

It is also reported that Acredita CI staff will continue to work under the Telework modality, in the same way that the Agency's daily operating activities have been carried out since March to date. This, until further notice.

Any communication with the Agency may be made through the email [agencia@acreditaci.cl](mailto:agencia@acreditaci.cl)
